The third generation SPOT™ RT3 Slider enables both true color imaging and high sensitivity monochrome imaging in a single camera. Electronic circuitry refinements and deep cooling provide clean, uniform backgrounds when light is limited. The flexible RT3 Slider is ideal for brightfield color imaging, fluorescence microscopy, FISH, GFP imaging, immunofluorescence and 3D deconvolution. IEEE 1394 Firewire™ connectivity enables effortless installation on computers and laptop portability.

The SPOT RT3 includes SPOT
Basic software (Windows® and
Mac® OS) which features real time
image previewing, scale bar
addition, report generation, time
lapse, and measuring capabilities.
Drivers are available for third
party imaging software applications,
and a Software Development
Kit (SDK) is available at no charge
for integration with custom
applications. SPOT RT3 cameras
come with a 2-year warranty and
are supported by an experienced
team of imaging specialists.
